From the President

Another LRCGB Specialty is in our past, and I have to say this show was one of our best ever. Everywhere I looked I saw people who's smiles were as happy as their Labrador's wagging tails. Perfect show site, perfect weather, perfect show committee, a club president just can't ask for better than that! Thank you to all who helped in big and small ways, tell your friends 2011 will be even better!

As the first half of 2010 rolls by we have had some great events, and have more planned for the rest of the year. I'd like to put this out there for your consideration, some of our board members are thinking of stepping down after many, many years of service. Might 2011 be the year where your activities for the club include board membership? Or is 2011 the year when you will join a committee to put on one of our great events? As you sit back on a hot summer day, enjoy a tall cool beverage, admire your labs playing in the sun, and think what contribution you might be willing to make to our club in 2011. We are always open to suggestion – just email me at lrcgbpres@gmail.com. And give your lobbies a pat from me.

READERS WANTED!

I have written a book about rehabilitating my Lab from an FCE (fibrocartilaginous embolism). The book is a first-person account from the perspective of a pet owner, written for other pet owners facing a similar diagnosis.

If anybody has experience with FCE in ANY capacity and would consider writing a book review or even a 1-sentence blurb, please get in touch and we can discuss details.

Thanks,

Service Dogs Needed

We are working on a small program training quality service dogs for our patients with multiple sclerosis . . . one dog at a time. We hope to train labs and goldens, a small number of dogs each year. I follow 750 patients and families with MS and many are very interested in having a dog and appropriate. I am working with Judy Tucker, an experienced puppy raiser who raised many dogs for Canine Companions for Independence (CCI) in the past. In addition to puppy raisers we will be working with an experienced trainer and vet.

Could you tell me about your dogs and the possible availability of any labs for this spring, summer, or fall ? We're ready to take our first dogs as early as mid-May.

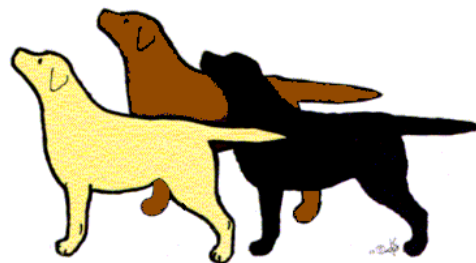

Thanks so much. Appreciate your input.

DEAR LABBY

"Dear Labby" will be a once-in-a-while, hit or miss column dedicated to helpful hints for the owner of one or many Labradors. Dear Labby won't dispense veterinary or breeding advice and won't touch anything even hinting at controversy with a ten-foot pole.

Photo courtesy of Abner Barlow

She will, however, welcome any tried and true helpful hints her readers may have and try to include them in her column. When submitting something please indicate whether or not you wish your name used.

DEAR LABBY:

I have been using my blender to make weaning food for my puppies. I never seem to be able to get it completely clean and end up eating puppy food myself in one form or another. Is there another way to do this?

TIRED OF PUPPY SMOOTHIES

DEAR PUPPY SMOOTHIE:

Dear Labby can empathize with your predicament having done it herself in the past. We now put our puppies' food in shallow stainless pans, add very hot water and place a cover over the pan which will fit tightly. A dinner plate works for our pans. Let the water completely absorb and be sure the food is not too hot when served. It may take a couple of tries to be able to judge exactly the correct amount of water. We then take a potato masher (to get out the lumps if any are left) or a whisk and mix it thoroughly. We have found it might take a bit longer than the blender method but if you factor in the cleaning time necessary for the blender it really is quicker and the food seems to have more texture.

*Send your DEAR LABBY questions to Barbara Barfield:

Deed Not Breed!

Would you welcome these well-behaved pooches into your neighborhood?
Of Course!

AKC® believes a dog should be judged by its deeds, not its breed. We are dedicated to the passage of reasonable, enforceable, non-discriminatory laws to govern the ownership of dogs.

Best-in-Show winner "Rufus" is not only a seasoned show dog but a fun-loving family pet.

Unfortunately, some legislators believe they can protect their communities by imposing laws that restrict or completely ban dogs based on breed alone, with little or no consideration of well-mannered canines. AKC knows there are better, more effective alternatives.

Pet Astrology

LEO (July 23 - Aug 22)

Leo pets are born leaders and they have a royal tint in their behavior and movements. They have a pride in them. They are known to be arrogant. On the contrary, they are also friendly and gregarious. Nobody dare to challenge their authority. Leo pets are loving and faithful and demand their owner's attention 24 hours a day if there are other pets in the household. They have a good memory and make good pets particularly if there are small kids at home 'cause they take good care of them.
